

This program will push traditional boundaries to create a community-coordinated, person centered case management system. CCMEP takes a holistic approach to stabilizing individuals and families by addressing a variety of factors including health, addiction/substance abuse issues, housing, education, transportation and more. In conjunction with supportive services, CCMEP will provide access to employment and training services, including career counseling and job placement. Our goal is to improve employment and education outcomes for youth and young adults by helping them overcome barriers to employment and develop the skills local employers seek.
