JUVENILE TRAFFIC OFFENDER DIVERSION PROGRAM

CARTEENS

(Caution and Responsibility and Teens)

In August of 2018, the Court, in conjunction with the Ohio State University Extension Office of Portage County and the Ohio State Patrol Office Post 67, instituted a juvenile traffic diversion program for youth with waiverable and in some cases non-waiverable traffic offenses upon the consent of the judicial officer.

The Carteens Program is conducted once a month for a 2 to 3 hour class. The teen driver and one parent are required to attend. The youth's traffic violation is stayed until the completion of the Diversion Program. The traffic citation will be dismissed if the youth successfully completes the Diversion Program, have no further traffic violations for six (6) months and pay court costs.

The parents of the teen driver benefit from the program by having the citation dismissed, thus, saving potential increases in the teen driver's insurance rates; and by having no points assessed to the teen driver.

The Carteen Safety Program's goals include reducing a number of repeat juvenile traffic offenders, decreasing the number of teen traffic offenders and increasing teen awareness of traffic/vehicular safety.

2018 STATISTICAL DATA

108 teen traffic offenders were referred and 73 completed the requirements of the program at the conclusion of 2018. (Remaining 35 referrals scheduled in to the program in 2019.)

**PSYCHOLOGICAL
AND
SUBSTANCE ABUSE SERVICES**

Psychological and Substance Abuse Services

PSYCHOLOGICAL AND SUBSTANCE ABUSE SERVICES MISSION STATEMENT

The role of Psychological and Substance Abuse Services is to provide the Portage County Court and Portage/Geauga Juvenile Detention Center professional clinical and assessment services as a part of the overall rehabilitative effort. To assist in rendering appropriate dispositions that take into consideration the individual needs, characteristics and circumstances of the children in question, the Court orders evaluations to aid in generating case recommendations. It is hoped that by earlier identification of potentially serious offenders, the community can be more effectively protected, while at the same time, by more clearly delineating issues to be addressed as part of a rehabilitative program, more children can be effectively served resulting in less recidivism.

GENERAL SERVICE DESCRIPTION

Psychological and Substance Abuse Services staff conduct evaluations for the Court to assist in generating recommendations for case dispositions. Additional services provided include diagnostic assessments, substance abuse assessments, mental health screening, short term counseling with detained children, consultative services, treatment planning and referral, psychological screening of applicants for employment, and conducting in-service training programs.

PSYCHOLOGICAL ASSESSMENTS 2018

In 2018, forty-nine (49) children were referred to Psychological Services for evaluation. The assessment process includes parent and child interviews, psychological testing and preparation of a written report. Reports will vary in nature depending on the reason(s) for conducting the assessment and the issues that need to be addressed. The following represents the types of psychological evaluations conducted in 2018.

<i>Type of Evaluation</i>	<i>Total</i>
Competency Evaluations	5
Department of Youth Services Evaluations	1
Department of Youth Services Evaluations and Serious Youthful Offender Assessments	1
Psychological Evaluation and Sexual Offender Risk Assessments	6
Psychological Evaluations	2
Psychological Screening Reports	27
Recommendation for Disposition Reports	7
Total Reports	49

All children admitted to the Portage/Geauga Detention Center are also screened at the point of intake by Detention Center staff in an effort to identify high risk residents. In addition to direct inquiry into areas related to risk to self and/or others, each child completes a structured questionnaire designed to obtain specific information regarding potential areas of risk. Subsequent to the child's intake and admission all residents (with the exception of weekenders and those released immediately following a preliminary hearing) are interviewed by a qualified mental health professional and a mental status examination is completed. Residents held in detention on a post adjudicatory status are also administered an academic achievement test and often an objective psychodiagnostic personality inventory to further assess for various areas of potential concern, psychological disturbance and/or other rehabilitative needs. Psychological Services staff review all intake and/or assessment materials generated on each resident as part of a coordinated effort to appropriately respond to resident needs/concerns during their period of detention. In 2018, intake reports and assessment materials were reviewed on one hundred and fifty (150) new or repeat admissions to the Portage/Geauga Detention Center.

Psychological Services staff are also available to Detention Center staff and residents upon request to provide direct clinical counseling, assessment, and consultative services. In 2018, in addition to reviewing resident intake and assessment materials, Psychological Services staff provided on eighty-eight (88) separate occasions direct clinical counseling/crisis and assessment services on an as needed basis to detention center residents. The following table provides statistics regarding child assessments and general clinical services provided to residents during 2018.

CLINICAL COUNSELING AND ASSESSMENT SERVICES	RESIDENT INTAKE AND ASSESSMENT REPORT REVIEWS	TOTAL

TREATMENT PLANNING, COORDINATION AND REFERRAL TO LOCAL COUNSELING AGENCIES

In addition to Psychological Services' primary role of conducting assessments and providing clinical counseling and consultative services to the Courts and Detention Center, it frequently acts in a coordinating capacity with other involved agencies. In keeping with the Juvenile Court's goal of minimizing a child's involvement in the legal system, efforts are directed toward providing for the child's rehabilitative needs by utilizing services offered by local child care agencies. Psychological Services staff participate in regularly scheduled in-house staff meetings for case planning, as well as attend bi-monthly and monthly clinical team meetings to assist in formulating rehabilitative service plans with other involved agencies.

When specific recommendations for treatment are made a part of a case disposition or terms of a child's probation, Psychological Services often assists in initiating the referral process, monitoring and/or tracking progress in treatment, and maintaining appropriate contact with local service providers. The following represents the number of children referred for out-patient treatment services monitored and/or tracked by Psychological Services.

Cognitive Behavior Intervention for Substance Abuse (CBI-SA) is an evidence based program developed by the University of Cincinnati Corrections Institute designed for youth that have been identified as moderate to high risk in the area of substance abuse. CBI-SA is divided into six (6) modules which consist of Motivational Engagement, Cognitive Restructuring, Emotional Regulation, Social Skills, Problem Solving and Relapse Prevention. Sessions are held each Wednesday at Portage County Juvenile Court for thirty-nine (39) weeks. Each session is one (1) and a half hours in length. CBI-SA is conducted in a group setting facilitated by Certified Juvenile Court Staff. Youth will spend a significant amount of time learning and practicing new methods of handling high risk situations related to substance abuse. Groups will focus on exploring individual triggers and how they contribute to participants' substance abuse. Further, the program will teach ways to identify, avoid and manage such triggers as well as associated urges to use.

**PROBATION DEPARTMENT
AND
INTENSIVE PROBATION DEPARTMENT**

Department of Probation Services

The Department of Probation Services consists of two divisions: Intensive Probation and Regular Probation. Officers are responsible for supervising youth and enforcing probation terms, as well as assisting with rehabilitation. This consists of office, school, and home community based contacts by Officers. Both divisions assist youth in meeting treatment needs through the coordination and monitoring of case planning.

The Department of Probation Services utilizes a risk assessment tool to develop formal written case plans. These plans discuss the short and long term goals of probation, identifying ways for the youth to meet those goals. Officers solicit input from the youth and parents/guardians in order to complete a signed and agreed upon plan.

Probation staff is trained in Effective Practices in Community Supervision (EPICS). Additional targeted interventions are incorporated using Brief Intervention Tools (BITS) directed by Carey Guides. These successful Evidence Based Programs (EBP) are designed to reduce recidivism by addressing delinquent behaviors via the risk, need, and responsivity principles of medium to high risk offenders.

The Probation Department has two trained and certified Officers that implement Cognitive Behavior Intervention for Substance Abuse (CBI-SA) programming. This program was developed by the University of Cincinnati and designed for substance abusing moderate to high risk youth. It uses a cognitive behavioral approach done in a group setting by teaching participants how to identify, avoid, and manage triggers. The program targets adolescent using behaviors by way of identifying thoughts, feelings and actions that directly impact their substance use. The two Officers, along with a Court employed licensed chemical dependency counselor, who is also certified in CBI-SA, facilitate the program on a weekly basis for thirty-nine weeks.

The Department of Probation Services conducted six (6) Ohio Department of Youth Services Evaluations and fourteen (14) Pre-Dispositional Investigations for the Judiciary. No youths (0) were committed to the Ohio Department of Youth Services in the calendar year. Three (3) adolescents were sent to a Community Correctional Facility.

The Probation staff administered 549 drug screens. Nineteen percent (19%) of those screens were positive for at least one drug. Seventy-four percent (74%) of positive drug screens were for marijuana. The remaining positive screens were comprised of cocaine, methamphetamines, amphetamines and benzodiazepines. Eighty six (86) notices of alleged probation violations were filed. Fifty two (52%) of those notices were drug related. Probation staff facilitated fifteen (15) youths into residential substance abuse treatment.

Of all youths on Probation at the end of 2018: 93% were enrolled in school, graduated, obtained a General Equivalency Diploma, or were participating in an alternative educational program. Additionally, 84% were referred, involved or completed mental health and/or substance abuse services during 2018.

Regular Probation 2018

The Regular Probation Department is responsible for supervising any youth ordered by the Court. Probation terms and case plans are implemented which the youth are required to follow. Youth in this program meet weekly with Probation Officers for the first month of supervision. Staff has the discretion of gradually stepping down the level of supervision dependant upon a child's behavior and progress. Youth in this program have been adjudicated on felony, misdemeanor and unruly offenses.

GIRLS CIRCLE PROGRAM

The Court has a gender specific program model for females in the department. The girls are identified by Court Officers for participation in the group. The Girls Circle Model consists of eight (8) structured weeks of groups designed to foster self-esteem, helps girls maintain a connection with peers and adult women in the community, work on self-doubt, and allow for self-expression through verbal sharing in group and participating in creative activities.

In 2018, twenty-two (22) girls participated in the group and completed the necessary requirements.
