G. **Resolution #22-81** Declaring a Public Nuisance Ordering Abatement of that Nuisance at 4254 John Thomas Rd., Ravenna, and Approve Civil Prosecution for Violations of ORC and OAC.

Ms. Smith stated that on July 12, 2021, PCHD conducted an inspection of the STS serving the above-referenced address. The inspection was prompted by a point-of-sale inspection received by PCHD. The inspection revealed that the sewage treatment system (STS) had sewage effluent backing up into the septic tank above the riser during the dye test signifying the system is not operating properly. This is indicative of a malfunctioning system.

A motion was presented by Board Member Ribelin to Adopt Resolutions #22-81, seconded by Board Member Grimm.

A vote on the motion is as follows:

Board Member Howard	Yes	Board Member Everett	Absent
Board Member Cutlip	Absent	Board Member Dr. Minott	Yes

- H. **Resolution #22-82** Declaring a Public Nuisance Ordering Abatement of that Nuisance at 2554 McClintocksborg Road, Deerfield Twp., and Approve Civil Prosecution for Violations of ORC and OAC. Service permit, no contract, expired.

Ms. Smith stated that on November 9, 2021, PCHD conducted an inspection of the STS serving the above-referenced address. The inspection was prompted by property owner's failure to submit annual service contract from registered service provider required by the NPDES discharging system operation and maintenance program. The inspection confirmed the sewage treatment system (STS) aeration motor, pump, and audible high alarm are not functioning.

A motion was presented by Board Member Ribelin to Adopt Resolutions #22-82, seconded by Board Member Minott.

A vote on the motion is as follows:

Board Member Howard	Yes	Board Member Everett	Absent
Board Member Cutlip	Absent	Board Member Dr. Minott	Yes

- O. **Resolution #22-89** Revising the RV Parks, Recreation Camps, Combined and Temporary Park-Camp Fees to Comply with Ohio Revised Code 3729 and Ohio Administrative Code Chapter 3701-26 – 1st Reading. Fees to be Effective December 1, 2022.

Ms. Smith stated the revised fee schedule is at a 1% base decrease and a thirteen cents per campsite increase. Fees have not increased since 2020.

- P. **Resolution #22-90** Revising the Tattoo & Body Piercing Services Fees – 1st Reading. Fees to Comply with Ohio Revised Code (ORC) Chapter 3730 and Ohio Administrative Code (OAC) Chapter 3701-9. Fees to Be Effective November 1, 2022.

Ms. Smith stated the revised fee schedule is at a 5% base decrease for a new establishment as well as the annual renewal of registration. Fees have not been increased since 2020.

- Q. **Resolution #22-91** Revising the Public Swimming Pool and Spa Fees – 1st Reading. Fees to Comply with Ohio Revised Code (ORC) Chapter 3730 and Ohio Administrative Code (OAC) Chapter 3701-9.

Ms. Smith stated that the revised fee schedule is at an approximate 4% increase for a license fee cost analysis on pools, spas, special use pools and government pools. The fee schedule for a license fee cost analysis for an additional pool or spa has increased by 4.29%. Fees have not been increased since 2020.

- R. **Resolution #22-92** Revising the Private Water System Fees – 1st Reading. Fees to comply with Ohio Revised Code Chapter 3701.344 and Ohio Administrative Code Chapters 3701-28. Fees to be Effective January 1, 2023.

Ms. Smith sent information regarding fees prior to the meeting to the board for review. A public hearing will be held on October 9th.

It has been a total of eleven years since these rules were adopted in 2011 and then amended in 2020. There are a total of nineteen fee categories and three penalty requirements to be revised. In the table and definitions provided to the board by Ms. Smith, the following category fees have decreased for 2023.

These nine categories show an 8% decrease in the actual permit costs compared to the 2023 proposed fee table and the 10th (E)19 Penalty, decreased by 23%.

1. (E)1 (1,2,& 3 Family Dwelling) Construction of a private water system, excluding ponds. This decreased by 8% which calculates to a decrease of \$33.67.
2. (E)4 (1,2,& 3 Family Dwelling) Conversion of a non-potable well to a private water system. This decreased by 8% which calculates to a decrease of \$33.67.
3. (E)7 (1,2,& 3 Family Dwelling) Alteration of a PWS or test well. This decreased by 8% which calculates to a decrease of \$20.40.

4. (E)17b (Hauled Water Categories) Hauling water without a registration or vehicle inspection. This increased by 16% which calculates to an additional \$9.94.

DISCUSSION REPORTS:

Administration and Personnel:

Ms. Meduri is on maternity leave until October 2022. Mr. Diorio stated that the position for a fulltime Public Health Nurse is still ongoing. The conditional offers and counteroffers have not been successful in fulfillment of the position. The candidates that Ms. Ferraro chose for the position were unsuccessful due to the wage differential of what the hospitals are offering, which the health district cannot compete with.

Fiscal and Accounting:

Mr. Fletcher stated that the cash basis reconciled nicely, compared to the auditor's report. Mr. Fletcher stated that at the end of July, there was a total of \$232,865.19 in revenue and a total of \$498,614.52 in expenditures, advances, and transfers. Leaving a balance of \$3,507,949.38 at the end of July. There have been some building expenses for the new location and those expenses will continue to appear over the next few months.

Nursing:

Ms. Ferraro is on vacation. Mr. Diorio to give a report for the Nursing division. Mr. Diorio stated that the Monkeypox virus is in the news. There was one confirmed case in Portage County. The nursing division is tracking this case. Covid-19 is still keeping the nursing staff terribly busy along with contact tracing. Schools are still reporting positive cases. Kent City Health Department (KCHD) terminated the Communicable disease contract. The city decided to move forward with servicing their own nursing facility per their Health Commissioner's comments. This ended the first week of July 2022, however, PCHD continued to report until the end of August. This termination does not include Kent State University.

Member Ribelin asked about the new vaccine for Covid-19 and if it had been approved to administer yet. Mr. Diorio stated that it has not been approved to administer as of yet since this virus is always evolving. Member Dr. Minott stated that this is a work in progress as Omicron has several variants. He mentioned that there have been discussions of a super vaccine to assist with the ongoing Covid-19 cases. Board President Howard state that there is an option to approve a fifth booster in the UK. Though it has not approved here in the US. The back-to-school clinics are increasing for vaccination; however, the Covid-19 vaccinations are not increasing in the toddler age range. There is a national push for childhood vaccinations, as statistics show a decline in child vaccinations.

Environmental:

Ms. Smith stated Mr. Sarfo and Ms. Plough worked on the Stormwater and Wastewater billboards. The Mosquitos' billboards were completed by Mr. Bull and Ms. Menke. Ms. Smith spoke about the second round of the tire recycling program at Bob Sumerel Tire in Ravenna, and the positive outcome and support reciprocated for providing these services to the community as well as the county maintenance facilities. Several tractor trailer containers were filled with recycled tires and rims. Ms. Smith stated that the WPCLF & the H2Ohio programs has provided an influx of approximately \$1,151,000.00 since the program first started in 2016, aiding in 102 qualified applicants with their HSTS needs. Ms. Smith addressed the board of the first positive case of the West Nile Virus in Portage County. There has been testing in about five townships within the County. Ms. Smith and Ms. Lehman have been proactive in alerting the communities on the risks of the West Nile Virus and how to treat for mosquitos. The billboards are instrumental in alerting the public. Member Bierlair commented on how well the tire drop off benefited his predicament of inheriting unwanted tires on his properties. He commended the process and the swiftness of the Portage County prisoners who unloaded the tires and placed them into a tractor trailer, all within a few minutes. Member Ribelin asked Ms. Smith where the dead tires go once disposed of. She stated that there is a disposal site in Minerva, OH. This location is the only site within Ohio who recycles tires. Ms. Smith stated that it is a tedious and costly process to recycle tires and it is most often abandoned due to the process of having to remove the steel bands in the tires prior to recycling.

Ms. Smith stated that when she arrived in 2015, the Health District was placed on a provisional status with the Department of Health and the Department of Agriculture. Department of Health was very diligent on the issues that needed addressed and once that was achieved, the provisional status was lifted. However, the Department of Agriculture never returned to resurvey the health district, leaving the provisional status in place. Though we were cleared by the Department of Health, the Department of Agriculture still had the health district on a provisional status. Recently, the Department of Agriculture was permitted to return to survey within the State of Ohio. They surveyed the Environmental division's files particularly the funds used for Covid-19. While 25% of the State's Health Districts used the Covid-19 dollars as a federal grant fund, it should had been treated as a Covid-19 program, thus causing the cost methodologies to show incorrect information and caused an overage on the dollar amount for the fees, which is an automatic placement on provisional status. The Department of Agriculture stated that the cost methodology needed to be redone and the changes for the 2023 fees should reflect the cost overages from last year's fees, subtracting the difference from the 2023 fees. Once this is completed, reviewed, and approved but the Department of Agriculture, they will then release the provisional status. The cost methodology changes and increases to the FSO will be submitted for the next board of health meeting to reflect the impact of Covid-19 along with a table ranging from 25% to 100% columns for the fees that will be adjusted. Ms. Smith stated that once her division was able to return to inspections, there were significant issues that needed to be addressed on design layouts and additions that were not approved. These changes will reflect a significant increase in the fees for 2023. The Department of Health will visit PCHD in October for a survey evaluation of their food program. They will return in November to survey the Wastewater program. The camps and pools program were previously surveyed and approved by the Department of Health.

Health Education and Promotion & Accreditation:

Ms. Lehman stated that they had been busy with the back-to-school programs, Octane nights, quite a bit of positive feedback on the new location from the public. Ms. Plough is promoting the SAIL program for the replacement of the MOB (Mobility of Balance) with seniors. Some of the other highlights were,

- Kim provided 14 car seats in August and held a car seat check event at UH Portage.
- There were 110 Project DAWN kits distributed in August.
- Ali reached 402,884 people with Safe Communities collaborative messages using social media.
- Health Ed participated in many community events in August including Octane Nights on the front lawn of the new building and a back-to-school bash at NEOMED held by JFS.
- Bob completed the PHEP deliverables for the grant and has started on this next year's grant deliverables.
- Reminder that the Portage County Randolph Fair is upcoming.

- Equity

Mr. Sexton and Ms. Lehman went to the PHAB meeting, which was very insightful. Her division also attended the CHA meeting, with thirty-two community partners partaking in the meeting. There was great feedback per Ashley the facilitator of Conduent Community Health Solutions - CHA & CHIP Assessment 2022. Next month is the CHIP meeting.

The Portage County Randolph Fair is upcoming. Member Ribelin asked if there was a factor to determine if there has been a change over the 3 years since Covid-19. for accreditation and the CHA/CHIP process. Ms. Lehman stated that Portage County is moving in the same direction as most of the state and doing a data refresh for the community health assessment. There will still be trend data to track and review. Focus groups and health equity primary data has been collected and will be included. Additional primary data will come from LGBTQ+ survey done by KSU and the YRBS done in 6 Portage County schools.

Women, Infants, and Children (WIC):

Ms. Cooper stated that this is a busy period. Continuing Curbside WIC Services. Waivers have been extended through Mid-January 2023.

Columbiana: Served 671 participants in July (certification, recertification and education appointments, transfers, walk-ins).

Portage: Served 642 participants in July (certification, recertification and education appointments, transfers, walk-ins).

Portage distributed 330 (100%) FMNP coupon booklets at WIC clinic and at Haymaker Farmers' Market in July, as well as cookbooks and additional materials to promote local fruits and vegetables and shopping at farmers' markets/farm stands. Promoted the WIC program at Haymaker, as well.

Health Commissioner:

Mr. Diorio stated that the building is the biggest priority at the moment. The move is scheduled for the week of 08/29. The generator was installed. The brick work has been started for the overnight depository location. The data lines are being run throughout the building. There was an increased number of lines to be installed than originally planned. Painting has been started. The HVAC was recently worked on and is operational for the time being. The fire extinguishing company came in to manage the extinguishers, the exit lighting, smoke detectors, and elevator shaft. There are some emergency exit lights that need fixed. Mr. Diorio stated that the teller lines are down and the bathrooms on the first floor have started. The lawn signs are up, the trees are down that needed removed, and the roof is secured. There has been a lot of progress. There is more carpet coming. Knox Marketing will be running ads for PCHD in October.
