Preliminary Plan of "High Point Hills" on Tallmadge Road, Lot 33 in Brimfield Township, GREAT Development, LLC., applicant – Report presented by Todd Peetz

The applicant is requesting a re-review of a proposed subdivision consisting of 99 single-family homes which is seven more than the first preliminary plan reviewed. The plan also identifies 104 multi-family units in Block “A” and an assisted living place is proposed for Block “B”.

The site fronts on Tallmadge Road and was formerly known as the Green Hills Golf Course.

The wetland buffers reserved for natural vegetation and the 40-foot building/pavement buffers from wetlands are shown on the preliminary plan. It does not appear that any wetland areas are being violated however, if there are any impacts to the wetlands will require a permit from the Army Corps of Engineers or from Ohio EPA.

A meeting was held with the applicant to go over the conditions and staff recommends *conditional approval* of the preliminary plan with the following conditions:

1. Sewer and water improvements meet the requirements of Water Resources.
2. Brimfield Township BZA approves the subdivision as a conditional use and approves any variances requested.
3. All lots meet minimum frontage requirements of 60 feet specified in the County Subdivision Regulations.
4. Wetland impacts are evaluated and a permit from the Army Corps of Engineers or the Ohio EPA is acquired prior to construction or filling activities on the site.
5. Address the County Engineer’s comments.
6. A copy of the Homeowner’s Association covenant and deed restriction is provided.
7. A variance to the P.C. Subdivision Regulations will be required for the length of Road “A” since three is no block break and is over 2,000 feet.

A motion was made by A. Orashan to follow staff recommendation. Motion seconded by M. Hlad. Motion carried with 24 Yeas and 1 Abstention (S. Christian-Bennett).

Replat of Sublots 9 – 11 in the “Ranch Club Estates – Part 5” on Waterfall Trail, Lot 37 in Charlestown Township, Fallie & Donna Bennett, applicant – Report presented by Todd Peetz

The applicant is requesting approval to combine three sublots into one lot. There is an existing structure on Sublot 9 and a storage building is located on Sublot 11.

There do not appear to be any wetlands or flood hazard areas on the site.

Staff recommends approval of the replat as presented. A motion was made by R. Gano to follow staff recommendation. Motion seconded by R. Dempsey. Motion carried with 25 Yeas.

Replat of Sublots 62 & 63 in the “Treasure Cove Allotment” on Treasure Blvd., Lot 35 in Deerfield Township, Clifford Shaffer, applicant – Report presented by Todd Peetz

The applicant is requesting approval to combine two sublots into one lot. There is an existing residential structure on Sublot 62.

There do not appear to be any wetlands or flood hazard areas on the site.

All items that were found to be in non-compliance with the Portage County Subdivision Regulations have been corrected, therefore staff recommends approval the proposed replat.

A motion was made by D. Blewitt to follow staff recommendation. Motion seconded by J. Paulus. Motion carried with 25 Yeas.

ZONING

Shalersville Township Rezoning From A/R-R (Agricultural/Rural-Residential) to M-R-C (Mixed Residential-Commercial) on State Route 303, Marilyn Sessions, applicant – Report presented by Todd Peetz

The applicant is requesting a rezoning of approximately 2.069 acres to fronting on State Route 303 from A/R-R (Agricultural/Rural-Residential) to M-R-C (Mixed Residential Commercial). The proposed rezoning area is immediately east of Price Road but on north side of State Route 303.
The proposed amendment is to allow the property owners to provide additional property to the zoned Save 4 store located adjacent to the subject property. The commercial store was built in 1963. There is an existing house on the parcel which was built in 1955. There are existing homes adjacent to the commercial use and across the street.

Todd said there is a family connection to the Save 4 Store and this property. Ultimately the Township will need to determine if the zoning to M-R-C makes sense for the area.

There does not appear to be any environmental impacts to the site, no habitat loss or impacts from hydric soils, wetlands or floodplains.

Because the size and configuration of the parcel and is already adjacent to an area zoned for this purpose, staff would recommend approval of the rezoning from A/R-R to M-R-C.

A motion was made by D. Blewitt to follow staff recommendation. Motion seconded by J. Paulus. Motion carried with 25 Yeas.
