

DIRECT DEBIT

APPLICATION

Water Resources Department

The Direct Debit Payment Program

HOW DOES IT WORK?

The Customer will receive the normal bill showing the date and amount to be deducted from the financial account. There will be time to question or stop the payment if necessary.

The Customer is authorizing Portage County Water Resources to instruct their financial institution to make sewer and/or water payments from the account listed below. If at any time it is decided to discontinue this payment service, the customer is responsible to notify Portage County Water Resources.

If for any reason a Direct Debit payment is returned, the payment will be reversed and the Direct Debit program for the Water Resources account will be closed for future transactions.
