WATER ALERT

2018

Spring Hydrant Flushing Schedule

Fire hydrant flushing is done to remove any sediment or stagnant water from the distribution system and to test fire hydrant operation. These steps are being taken to improve the overall water quality within the distribution system and to insure the delivery of the highest quality of water possible. As in the past, the water may become temporarily discolored while personnel are flushing. The following schedule will give the approximate day they will be in your area.

2018 Shalersville Hydrant Flushing Schedule

Tuesday April 24

Zone 1: Shalersville WTP (1), Coit Road north to Shalersville Reservoir (9), Halstead Road (4), Bartlett Road (6), Frost Road (6), Diagonal Road (Hattie Larlham) (1), Beck Road (1), Coit Road (1) (29 hydrants)

Wednesday May 8th

Zone 2: Infirmary Road (20), State Route 303 east (12), Lime Ridge Road (2), State Route 44 (2), Centennial (2) (38 hydrants)
